NIGHTLY FALLS ILLUMINATION

Glowing waters against a dark starry sky
elevate the beauty of the thundering wonder
during the nightly light show.

The Falls Illumination is a must for any visitor! Every night of the year, the three waterfalls that make up Niagara Falls are transformed into a colourful masterpiece of water and light. LED lights shine from three different locales near the Falls to collectively provide the stunning illumination. The glowing vista can be viewed from near and far, whether you decide to venture toward the brink of the Falls at Table Rock, watch from your Fallsview hotel room or restaurant table, or revel in the experience from one of the many vantage points in the city.
